Management and Leadership

Environmental Policy Statement

- *Cloverland Farms Dairy is committed to conducting its business operations in a manner that is consistent with concern and respect for our environment. Toward this end, operational decisions shall reflect our strong belief in sound environmental management and environmental conservation as we faithfully seek to comply with all City, State, and Federal environmental laws, rules and regulations.*
- *Cloverland Farms Dairy will work toward continual improvement of our Environmental Management System, with the goal of improved environmental performance through the prevention of pollution, energy reduction, and the minimization of waste and emissions from our operations. Performance will be measured against objectives and targets that are established and reviewed annually.*
- *Cloverland Farms Dairy will achieve this initiative through the work of the Facility Green Team with support from the Management Staff and all employees dedicated to protecting our environment.*
- *Cloverland Farms Dairy is working with RMI of Maryland.*

Environmental Team

- *The Cloverland Farms Dairy Green Team is comprised of employees from the management staff, accounting, production, distribution, sales, shipping, cooler, warehouse, administration, maintenance, and quality.*
- *The Facility Green Team meets once per month to measure improvements and to review suggestions and ongoing implementation of new ideas.*

Annual Environmental Goals

Our 2017 Goals:

- *Reduce waste stream by 50%*
- *Reduce power usage by 10%*
- *Increasing revenue stream for recycled products by 10%*
- *Complete projects to reduce environment resources such as power and water by 10%.*
- *Implement formal recycling program.*

Waste

Recycling

The facility is working with a recycling company to reduce 75% of the waste sent to a landfill.

Energy

Energy Efficiency

The facility is working with BGE on several projects to reduce the quantity of energy needed to operate the facility.

Water

Water Conservation

Internal waste water system to remove BOD & COD before water is sent to the City of Baltimore.

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
