Management and Leadership

☑ **Environmentally Preferable Purchasing**

We purchase recycled paper and envelopes and direct customers to energy efficient products and supplies.

☑ **Environmentally Preferable Products and Services**

We have a drop-off center and part separation bins for e-cycling collection. We recycle over 500 computers printers and monitors per month. We have aided and assisted several clients towards becoming a "paperless office."

☑ **Environmental Restoration or Community Environmental Projects**

We provide Havenwood Preschool and Riderwood Elementary with toners from old printers we acquire. They recycle the toners and receive rewards for their use in their school.

Waste

☑ **Recycling**

We recycle all shipping cardboard, paper, computer parts and toner cartridges. These amounts contribute to approximately 6,000 lbs or recycled waste per year. We also recycle 20 print cartridges per month at Staples.

Energy

☑ **Energy Efficiency**

We have converted our business to all fluorescent lighting and have signed up our electrical service to use 20% renewable energy.

Transportation

☑ **Efficient Business Travel**

Computers Inc. has added online repair software that allows us to provide our clients with remote desktop support. This has reduced travel and gas by 35 percent year over year.

Profile Updated February 2017

Help build a greener, more sustainable Maryland through voluntary practices that reduce environmental impacts and save money.
