## *Enforcement and Compliance Notes*

grants a temporary emergency nontidal wetlands permit to allow discharges through wetlands before entering the creek. The consent order places a moratorium on the issuance of further building permits for connections to the treatment plant until adequate treatment capacity has been demonstrated.

**Status:** Completion of a Rapid Infiltration Bed (RIB) treatment system must be completed by December 31, 1999. (Reference # CO-98-0069).

### **Rotorex Company - Walkerville, Frederick County**

On April 1, 1998 Rotorex Company, of Walkersville, plead guilty in Frederick County District Court to one count of

disseminating misleading information. MDE had requested that the company complete a form which asked for details of the plant's water treatment system. Rotorex failed to report that a carbon filter system had been installed to treat the plant's water for volatile organic compounds. Judge Frederick Bower imposed a \$5,000 fine against the company.

**Status:** Case closed. Rotorex has paid the \$5,000 fine.

### **Newburg Super Truck Parts - Charles County**

On April 2, 1998 a Complaint, Order and Penalty for \$5,000 was issued to

Newburg Super Truck Parts for failure to obtain financial responsibility (insurance) on three underground motor fuel tanks and for failure to maintain daily inventory or other means of release detection on the tanks.

**Status:** Pending (Reference #COV 98-036)

### **Tread-Shred, Inc., et al. - Prince George's County**

On April 15, 1998, MDE finalized an administrative consent order with Tread-Shred, Inc., a scrap tire recycling facility, We-Rek, Inc., an associated auto salvage operation and owner/operator William P. Egri. This action settles violations of the scrap tire recycling permit previously issued to Tread-Shred and violations of the NPDES storm water discharge permit issued to We-Rek which were alleged in MDE's administrative complaint and order issued October 14, 1997.

**Status:** Under the terms of the consent order, MDE has revoked the scrap tire license for Tread-Shred and Mr. Egri has agreed to clean up the site of all scrap tires by December 31, 1998 and implement an approved storm water pollution prevention plan. An administrative penalty of \$50,000 has been assessed for violations of the scrap tire recycling permit and an additional \$50,000 penalty has been assessed for violations of the storm water discharge permit. MDE has agreed to waive all but \$20,000 of the penalty provided clean up of scrap tires is completed and an approved storm water pollution prevention plan is implemented in accordance within established consent order milestones. Penalty payments of \$10,000 must be made to both the State Used Tire and Recycling Fund and the Maryland Clean Water Fund upon execution of the consent order.
