**Coal Combustion Byproducts (CCB)  
Annual Generator Tonnage Report  
Instructions for Calendar Year 2009**

The following is general information relating to the requirement for reporting quantities of coal combustion byproducts that were managed in the State of Maryland during calendar year 2009. Please answer the questions on the form provided, attaching additional information and any requested supplemental information to the back of the form.

**I. Background.** This requirement that generators of coal combustion byproducts (CCBs) submit an annual report was instituted in the Code of Maryland Regulations COMAR 26.04.10.08, that was promulgated effective December 1, 2008. The regulation requires that any non-residential generator of CCBs submit a report to the Department by March 1 of each year describing the manner in which CCBs generated within the State were managed during the preceding calendar year. Additional information and specific instructions follow. For more detailed information, please refer to COMAR 26.04.10.08.

**II. General Information and Applicability.**

**A. Definitions.** Coal combustion byproducts are defined in COMAR 26.04.10.02B as:

*"(3) Coal Combustion Byproducts. (a) "Coal combustion byproducts" means the residue generated by or resulting from the burning of coal.  
(b) "Coal combustion byproducts" includes fly ash, bottom ash, boiler slag, pozzolan, and other solid residuals removed by air pollution control devices from the flue gas and combustion chambers of coal burning furnaces and boilers, including flue gas desulfurization sludge and other solid residuals recovered from flue gas by wet or dry methods. "*

A generator of CCBs is defined in COMAR 26.04.10.02B as:

*"(9) Generator.  
(a) "Generator" means a person whose operations, activities, processes, or actions create coal combustion byproducts.  
(b) "Generator" does not include a person who only generates coal combustion byproducts by burning coal at a private residence."*

**B. Applicability.** If you or your company meet the definition of a generator of CCBs as defined above, you must provide the information as required below. For the purposes of this report, "you" shall hereinafter refer to the generator defined above. Please note that COMAR

Facility Name: Stan's Auto Body **CCB Tonnage Report - 2009**

26.04.10.08 requires generators of CCBs to submit an annual report to the Department concerning the disposition of the CCBs that they generated the previous year.

**III. Required Information.** The following information must be provided to the Department by March 1, 2010:

A. Contact information:

Facility Name: Stan's Auto Body

Name of Permit Holder: \_\_\_\_\_

Facility Address: 123 East Robert St.  
Street

Facility Address: Cumberland Md 21502  
City State Zip

County: Allegheny

Contact Information (Person filing report or Environmental Manager)

Facility Telephone No.: 301-722-8299 Facility Fax No.: 301-722-3663

Contact Name: Sheila Lewis

Contact Title: Bookkeeper

Contact Address: Same  
Street

Contact Address: \_\_\_\_\_  
City State Zip

Contact Email: Sheila@stansautobody.net

Contact Telephone No.: 301-722-8299 Contact Fax No.: 301-722-3663

*For questions on how to complete this form, please call Mr. Edward Dexter, Administrator, Solid Waste Program at 410-537-3318.*

Facility Name: \_\_\_\_\_

### CCB Tonnage Report – 2009

B. A description of the process that generates the coal combustion byproducts, including the type of coal or other raw material that generates the coal combustion byproducts. If the space provided is insufficient, please attach additional pages:

We receive our coal from Fieg Bros Coal Co. + Lincoln Coal Co. Each delivery we receive approx. 6 tons. Our average ground bucket of ashes is 3. We dispose them in our dumpster United Dep. Co. from Keiper. Wia takes our dumpster handfull in Frostburg, Md. Any leftover coal is covered for next season.

C. The annual volume of coal combustion byproducts generated during the last calendar year, including an identification of the different types of coal combustion byproducts generated and the volume of each type generated. If the space provided is insufficient, please attach additional pages in a similar format:

Table I: Volume of CCBs Generated for Previous Calendar Year:

Reporting Year	Volume of CCB Type:	Volume of CCB Type:	Volume of CCB Type:
2009	Coal-Ashes 14.5 tons Used more wood this year due to no coal being made

**CCB Tonnage Report – 2009**

D. Descriptions of any modeling or risk assessments, or both, conducted relating to the coal combustion byproducts or their use that were performed by you or your company during the reporting year. Please attach this information to the report.

E. Copies of all laboratory reports of all chemical characterizations of the coal combustion byproducts. Please attach this information to the report.

F. A description of how you disposed of or used your coal combustion byproducts in the last calendar year, identifying:

(a) The types and volume of coal combustion byproducts disposed of or used (if different than described in Paragraph C above), the location of disposal, mine reclamation and use sites, and the type and volume of coal combustion byproducts disposed of or used at each site:

United Disp full deposit it at the  
Landfill in Prossburg, Mt. New Landfill

and (b) The different uses by type and volume of coal combustion byproducts:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

If the space provided is insufficient, please attach additional pages in a similar format. . (Please note that in subsequent years you need only provide the information in Section F for the last calendar year).

Facility Name: Jones Auto Body

**CCB Tonnage Report – 2009**

G. A description of how you intend to dispose of or use coal combustion byproducts in the next 5 years, identifying:

(a) The types and volume of coal combustion byproducts intended to be disposed of or used, the location of intended disposal, mine reclamation and use sites, and the type and volume of coal combustion byproducts intended to be disposed of or used at each site:

In the next five years we plan to do the same. Burn the coal, put ashes in the dumpster and have United Disposal Services haul the ashes to the landfill at Mt View in Frostburg, Md. We will average 13-15 ton of coal with 1/3 of that being disposed in dumpster

and (b) The different intended uses by type and volume of coal combustion byproducts.
