FATALITIES

David A. Kyle, age 31, had been employed by the Bessemer Iron & Coal Company for three months and had been operating dozers and wheel loaders. He had requested to learn to operate a 631 B Caterpillar Scraper Loader; and, after having received instructions on the morning of October 23, 1974, he had started operating the scraper-loader.

At approximately 10:30 a.m. after completing 5 or 6 trips in low gear, Mr. Kyle, for some unknown reason, while descending a road grade of 7 degrees with a full load, veered to the left and lost control of the machine. He either jumped or fell from the operator's seat and was taken up into the bowl, resulting in his death from traumatic asphyxiation.

RECOMMENDATION: An inexperienced equipment operator should have thorough training before operating equipment alone.

Inspector in charge of District — Melvin K. DeShong

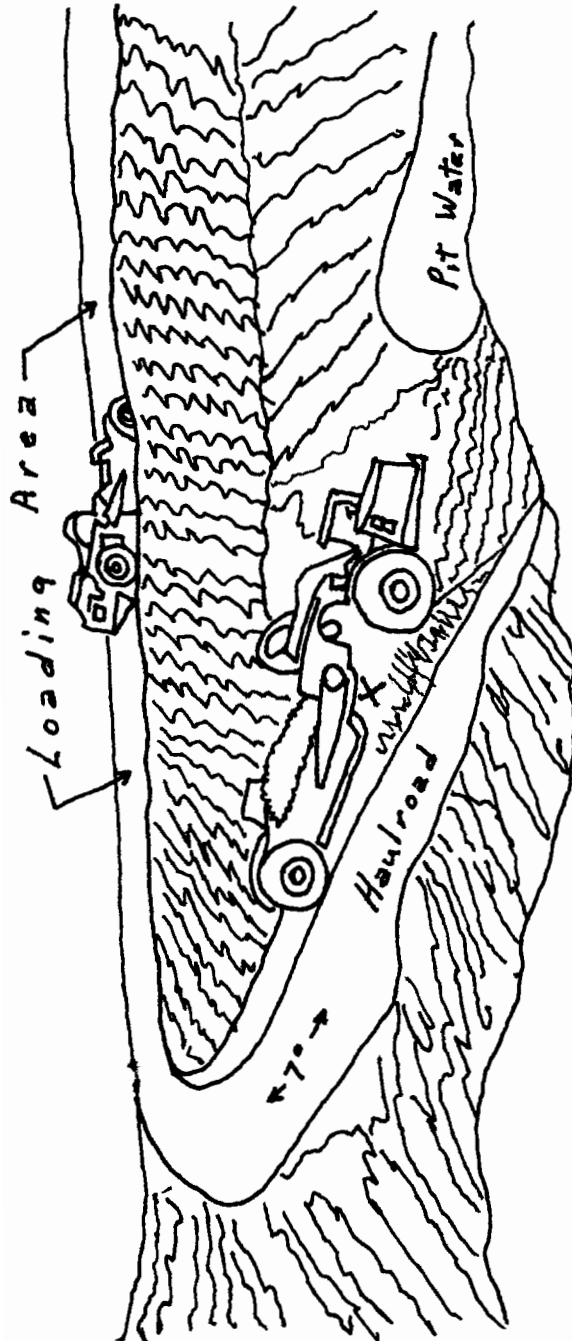

Final investigation was made October 24, 1974 by:

Melvin K. DeShong — Maryland Bureau of Mines

Charles J. Bush — U. S. Bureau of Mines

Mike Dorazio — U. S. Bureau of Mines

Richard J. Vasicek — U. S. Bureau of Mines

SKETCH OF FATAL ACCIDENT

October 23, 1974

SAFETY ORDER

During the calendar year 1974, one (1) Safety Order was issued by a District Mine Inspector of the Bureau of Mines.

The Safety Order is listed as follows:

Melvin K. DeShong, District Mine Inspector, District No. 2.

April 5 —

Violation of Safety Order on the highwall. Safety Order was complied with.

PROSECUTIONS

During the calendar year 1974, it was not necessary to obtain warrants against any mine operator for violation of the Maryland Mining Laws.

KITZMILLER MINE RESCUE TEAM

The Kitzmiller Mine Rescue Team is still active. Mr. Chester L. Evans, District Mine Inspector supervised the practice sessions.

The members of the team during 1974 were: Claude D. Boyce, Forrest W. Ferry, George K. Barnard, Daniel James, Roscoe W. Bray, Junior F. Tasker, Richard A. Boyce, Dale Junior Tasker and Lawrence D. Stonebraker. All of the members of this team resided in the vicinity of Kitzmiller, Maryland.

The Mine Rescue Team and the Maryland Bureau of Mines cooperate with the Maryland Civil Defense Agency to provide adequate rescue service for all cases of emergency.

MINE RESCUE

Mr. Chester L. Evans, District Mine Inspector worked 22 days in the Rescue Station at Kitzmiller maintaining equipment.

STATE MINE EXAMINING BOARD

The fifty-second examination for mine foreman was conducted on September 19, 1974, at the office of the Maryland Bureau of Mines in Westernport. Two candidates took the examination for Mine Foreman.

STRIP MINING

The Land Reclamation Committee was created to recommend and approve all procedures for reclamation, conservation, and revegetation of area affected by open-pit mining within the State of Maryland. Such measures shall include, but not be restricted to, backfilling and grading, the creation of acid water, and any other actions which will be conducive to conservation and best utilization of the natural resources of Maryland. It shall be the duty of the Committee to review all mining and reclamation plans, progress reports, and final reports. The Committee may inspect or have inspected any open-pit mining operation at any time in order to determine land reclamation, conservation and revegetation conditions. It is the duty of the Committee to establish plans and methods of procedure as well as practical guidelines for the prompt and adequate reclamation, conservation, and revegetation of all land disturbed by open-pit mining of bituminous coal within the State of Maryland. These plans, methods of procedure, and practical guidelines shall be submitted to the proper regulatory agency. Finally, the Committee is directed to review the strip mining laws of the State of Maryland to ensure compliance with the spirit of this Act.

The law also requires a detailed Mining and Reclamation Plan showing the Manner, Time and Distance for backfilling, drainage, planting, and general reclamation of the affected area.

The Revegetation Bond is separate from the Backfilling Bond and can vary from a minimum of \$50.00 per acre as the Land Reclamation Committee determines.

Rules and Regulations supplementing the Maryland Strip Mine and Auger Mining Laws are available from the Bureau of Mines.

Since early 1970, the Site Evaluation Committee has been active. This is composed of eight members of the Land Reclamation Committee: Bureau of Mines, Mining Industry, Soil Conservation, Water Resources Administration, Forest Service, Fisheries Administration, and two Citizens' Representatives; to go on site and evaluate permit and amended permit applications and report back to the Land Reclamation Committee. This Committee is most effective in working with the operators to carry out the laws as intended.

The Site Evaluation Committee spent 23 days investigating permit and amended permit applications. On numerous occasions, this Committee made spot checks on various operations.

Another effective procedure adopted by the Committee during the later part of 1970, is an open-acre limit, regardless of permit acres, set on each permit depending on type and amount of equipment, the size of the company, their past performance and ability to control their operation. This open-acre limit forces the operator to backfill as he goes along; whereas, in the past, he opened the whole area and then backfilled.

From January 1, 1974, through December 31, 1974, the Land Reclamation Committee held 13 regular meetings. Thirty-five new Permits, 36 Amended Permits and 49 Annual Mining and Reclamation Progress Reports were processed.

The acting members of the Committee are:

Chairman: Dr. Kenneth N. Weaver, Director
Maryland Geological Survey

Maryland Bureau of Mines: Harry B. Buckley, Director

Mining Industry: Robert Harvey and Donald Moran
(alternate Lloyd Green)

Soil Conservation: John Reckner, William Nace and
Douglas Valentine

Department of Natural Resources: Richard Sharpless
or Robert Creter,
George Gilmore or Fred
Bagley and Dave
Woronecki or Paul Harman

Citizens Representatives: Eugene Straub and June Neder
