| 3 | | 3 (1:34 p.m.) |
| 4 | | 4 MR. BAHR: Okay, let's go ahead and get |
| 5 | | 5 started. Good afternoon and welcome. Today is Monday, |
| 6 | PUBLIC HEARING: | 6 February 6th, 2017, and it's approximately 1:34 p.m. |
| 7 | NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) | 7 Today's public hearing is regarding Maryland Department |
| 8 | STATE AND FEDERAL | 8 of the Environment's (MDE's) tentative determination to |
| 9 | | 9 issue a National Pollutant Discharge Elimination System |
| 10 | | 10 (NPDES) General Permit for discharges from small State |
| 11 | The hearing in the above matter commenced on | 11 and Federal separate storm sewer systems (MS4s). For the |
| 12 | Monday, February 6, 2017, at the MDE Headquarters, | 12 record, it's General Permit Number 13-SF-5501, General |
| 13 | Montgomery Park, 1800 Washington Boulevard, Baltimore, | 13 NPDES Number MDR055501. |
| 14 | Maryland. | 14 My name is Raymond Bahr, Program Review |
| 15 | | 15 Division Chief in the Sediment, Stormwater and Dam Safety |
| 16 | | 16 Program within MDE's Water Management Administration. |
| 17 | | 17 With me here today is Deb Cappuccitti and Christina |
| 18 | | 18 Lyerly and Michelle Crawford, who are engineers and |
| 19 | Reported by: Linda Metcalf | 19 natural resource planners in the Program Review Division, |
| 20 | | 20 and they help to lead the administration of the small MS4 |
| 21 | | 21 general permit. |

list, please be sure to do so before leaving today.

I will start with some background information on MS4 permitting in Maryland, and more specifically about the current iteration of the Phase II State and Federal general permit. After that, I would like to give any elected officials that are here today an opportunity to comment. Then we'll work our way through the speakers list, and from my understanding, we have two maybes so far, an opportunity to comment.

The purpose of today's hearing is to accept public comment on MDE's tentative determination to issue an NPDES general permit for discharges from small State and Federal MS4s. MDE has drafted a general permit designed to comply with the United States Environmental Protection Agency's (EPA's) regulations to control stormwater pollutant discharges from small State and Federal MS4s. The permit is issued for five years.

This hearing is part of MDE's obligations for meeting public participation requirements under the Environment Article of the Annotated Code of Maryland. Written comments concerning this general permit will be Federal agencies, located in Census-defined urbanized areas or designated by the permitting authority. MDE's first Phase II MS4 general permit for State and Federal agencies was issued on November 12th, 2004.

The Phase II program is described in 40 Code of Federal Regulations Subsection 122.3 through 122.37 and requires the implementation of six minimum control measures. These six measures are public education and outreach; public involvement and participation; illicit discharge detection and elimination; construction site stormwater runoff control; and post-construction runoff control; also pollution prevention and good housekeeping.

The successful implementation of the six minimum control measures and other permit conditions constitute a compliance with the standard of reducing pollutants to the maximum extent practicable, protecting water quality and satisfying the requirements of the Clean Water Act.

This proposed permit action today is to issue a "second-generation" NPDES MS4 general permit for Phase II State and Federal agencies. This new permit includes

accepted through March 30th, 2017. This comment period already incorporates an additional 60-day extension period provided in Environment Article Subtitle 1-606(d)(2)(ii).

Maryland has been delegated authority by EPA to administer the NPDES program in the State. Final stormwater regulations were adopted by EPA in November 1990 in accordance with Section 402(p) of the Clean Water Act. Phase I of these regulations required municipal owners of storm drain systems serving populations of greater than 100,000 to apply for a stormwater permit.

In Maryland, ten jurisdictions and the State
Highway Administration were required to apply for
individual NPDES stormwater permit coverage. Smaller
cities and towns and State and Federal agencies within
these Phase I jurisdictions often had significant and
interconnected storm drain systems but were not affected
by these Phase I regulations.

In December 1999, EPA promulgated the NPDES Phase II regulations, expanding the stormwater permitting program to smaller localities, as well as State and additional conditions for consistency with EPA-approved total maximum daily loads, or TMDLs, to support Chesapeake Bay restoration efforts, as well as addressing local water quality concerns.

Conditions of the permit will require small State and Federal MS4s to commence restoration efforts for 20 percent of existing developed lands that have little or no stormwater management. Permittees will be required to perform watershed assessments, identify water quality improvement opportunities, secure appropriate funding, and develop an implementation schedule to show how the 20 percent impervious area restoration requirement will be achieved by 2025.

This permit will be Maryland's first MS4 Phase II State and Federal general permit to require impervious area restoration to address water quality impacts from urban areas that were developed prior to the State's stormwater management program. These restoration efforts will build upon the six minimum control measures that were required under the previous permit cycle. Together, they ensure comprehensive watershed management strategy

contribution.

and I'd like to either have you respond now or in

writing, today if possible. So that was a question, how

do you -- how does one define what is a substantial

9 11 1 for controlling stormwater, improving the health of local 1 MR. BAHR: Sure. 2 streams and rivers, and meeting the State's water quality 2 MR. HEARN: And I can go through all these 3 3 standards. before you respond, however you want me to do this. 4 With that, I would like to ask if there are any 4 MR. BAHR: Okay, well, I'd just like to say for 5 elected officials present today that would like to make a 5 the record this is really to accept comments from you --6 statement for the record. 6 MR. HEARN: Okay. 7 7 MR. BAHR: -- and from other members of the (No response.) 8 MR. BAHR: Okay, now we'll work our way through 8 public. We're going to be here for the rest of today. 9 the speakers list. Has everyone that wishes to speak 9 We can answer --10 today signed up to do so on the attendance sheet? 10 MR. HEARN: Okay. 11 (No response.) 11 MR. BAHR: -- the questions after the formal 12 MR. BAHR: Okay. Today's hearing is scheduled 12 hearing process. 13 for two hours, and we'd like to provide everyone an 13 MR. HEARN: Okay. 14 14 opportunity to speak. Since we have two maybes, that MR. BAHR: And obviously as part of our formal 15 means each of you can probably testify for at least a 15 response to comments, we'll respond to each one of those 16 half an hour if you would like to, but do please keep 16 individually. 17 your comments concerning this permit. 17 MR. HEARN: Okay. Well, that was the first 18 With that, we'll go ahead and get started. 18 question, how are you going to -- or how can one 19 And, also, prior to giving your testimony, please help 19 determine what constitutes a substantial contribution of 20 our stenographer by clearly pronouncing your name and 20 pollution. 21 then spelling it out completely. 21 Secondly, a physical interconnection is an 10 12 1 1 issue. Some discharges do not discharge directly to an And James O'Day from the WSSC. 2 2 MR. O'DAY: I'm a maybe, and the reason for MS4, but they may discharge to a natural waterway, which 3 that is J.L. Hearn I think will be the primary speaker of 3 in turn goes to an MS4 collection system. So that was 4 WSSC, but I wanted to reserve the right to be able to 4 really a request for clarification. 5 5 speak. Our major concern has to do with timing issue 6 6 MR. BAHR: With no further ado, Mr. J.L. Hearn. for waivers in the NOI. The waiver process, of course, 7 Would you like to come up here to the podium with the 7 allows us to request that certain properties be exempt 8 speaker? 8 from the permit requirements, but we will not know what 9 9 to include in an NOI until a decision is made on the MR. HEARN: We have several concerns, and I 10 10 sort of had the feeling that you would go through the waivers. It just seems to be -- there needs to be a time 11 parts of the permit first, but you didn't really do that. 11 -- there's a timing issue where we may be left with 12 So let me talk about the few issues that we do have 12 inadequate time to prepare the NOI or prepare plans if we 13 13 don't know what -- first what properties are exempt from concerns with. 14 First is the substantial contribution to 14 the requirements. pollutant loadings. That's identified as a possible way 15 15 Another thing goes to the specific requirements to get a site to have an exemption. And rather than 16 of the pollution prevention and good housekeeping. EPA 16 17 17 guidance on this does not include a specific stormwater formal comments, I basically have a series of questions

3 (Pages 9 to 12)

pollution prevention plan, which you have in your

proposal. And we think that goes above and beyond the

call of duty for a small site that is fenced from public

access. It may have a single tank on it. And,

16

1 basically, very close or if not below the 10 percent 2 impervious area in the first place. We think a detailed 3 site plan showing the storm drainage on that site would 4 be adequate and that a separate pollution prevention plan 5 for a site that's not manned and nothing is stored on the site except the only structure there is a water tank that 6 7 we don't believe a detailed pollution prevention plan 8 makes a lot of sense. 9 And I guess Jim was -- any other issues related

to the Bay TMDL that you wanted -- think we should talk about today?

I guess the timing on the -- again, this goes back to the waiver request. The permit calls for developing impervious area restoration work plans and baseline impervious assessments within one year of the effective date of the permit. Again, this is something that becomes an issue if there's any delay in making a decision on the waiver request because we have to use -we do use external consultants, and that's a process that takes several months to develop certain plans.

So they are basically the summary of comments,

want to go there.

And another example would be we have large sedimentation tanks at, for instance, our Potomac water filtration plant, where rainfall falls into what might ordinarily be characterized as an impervious surface, but the water that goes in there is captured into a closed system. So should we be calculating that as part of those types of facilities, as part of our impervious surface calculation, which once again might tie in with whether a waiver is a possibility? So we would just like some assistance and having some clarity on that.

MR. BAHR: Sure.

13 MR. O'DAY: Okay.

MR. BAHR: We can do that for you.

MR. O'DAY: Thank you.

MR. BAHR: And with that, I have Jai Cole from Maryland National Capital Parks & Planning Commission, is also a maybe.

19 MS. COLE: But you pronounced my name right.

20 MR. BAHR: I'm sorry. Please help us out. 21

MS. COLE: No, you pronounced it right.

14

unless there's something else, Jim.

MR. O'DAY: I just have one thing to add.

MR. BAHR: Sure. Please go ahead.

MR. O'DAY: I'm James O'Day on behalf of WSSC. On the impervious surface, the CFR doesn't seem to define, that I've found anyway, the term "impervious surface." We have some properties where it's a little more complicated as to -- while it seems like it's selfdefining, I think we have some instances where it might not be quite as clear.

If you take, for instance, a water tank, we have a large water tank where obviously the top of the water tank is going to block some of the rainfall from hitting the ground, but eventually it's going to run off to the same place that it probably would have.

And we're looking for some clarification as to whether those are -- those types of facilities are going to be calculated as part of the impervious surface. And once again, that ties in with the waiver criteria, et cetera. So we'd like a little more clarification and maybe even some definition of "impervious surface" if you MR. BAHR: Oh, I did. Okay. I got lucky,

then.

MS. COLE: Nobody can pronounce it right, and you did.

Okay, Jai Cole from MNCPPC. I guess we have some of -- some of them are a little similar to WSSC, although the first one is whether or not you guys are going to coordinate with the WIP. It would be good to fold both of those into the same permit instead of having to report basically that we're doing our WIP requirements through our NPDES permit. It just can all be rolled into one. That would be convenient.

Also, a little bit of clarity on how coordination with Phase I entities will be. We're a lot different, and we can talk sort of offline about -- about that, but how we coordinate with other Phase I entities with some of our -- some of the requirements for places that aren't sort of distinct polygons. Some clarity on that would be good.

Like WSSC, we would like a little bit more information on the waiver process for property

4 (Pages 13 to 16)

| | 17 | | 19 |
|----|---|----|---|
| 1 | exemptions. The portion of the permit that says | 1 | (No response.) |
| 2 | basically that pollution prevention plans for each site, | 2 | MR. BAHR: Okay. I'll give you a little bit of |
| 3 | clarity on what site is. We have 420 parks, so I don't | 3 | where do we go from here, and then we're formally over, |
| 4 | know what what the site is. | 4 | but please, if you have questions, stick around and staff |
| 5 | There are there's also a lot of and | 5 | will be here to help answer them. |
| 6 | forgive me, because we're a weird agency, but we're a | 6 | So, Linda, our stenographer, hopes to get us |
| 7 | State agency, but we're not permitted by the State. So a | 7 | the transcript back in about two weeks. At that time, |
| 8 | lot of the requirements in the permit talk about MDE | 8 | we'll put it up online, and we'll send an email out to |
| 9 | permitting, and we're not permitted by MDE. So there's | 9 | everybody on our interested parties list and let you know |
| 10 | that. | 10 | about that. |
| 11 | And then how and this is one of those things | 11 | The record, as we've said numerous times, it's |
| 12 | I'd have to go back and explain so the permittees with | 12 | going to be open until March 30th, 2017. The process |
| 13 | a new permit are only required if they have over 10 | 13 | after that, we're going to aggregate all the comments. |
| 14 | percent impervious. Is I'm assuming that that's | 14 | MDE will do a response to comments, and that will |
| 15 | total. So we have two in our counterparts in Prince | 15 | probably take a couple of months, and then we're going to |
| 16 | George's County, therefore, we wouldn't be required to | 16 | issue a final determination. |
| 17 | have a permit. | 17 | Once the final determination is issued, the |
| 18 | That would be a little bit of a because they | 18 | designated State and Federal agencies will have 180 days |
| 19 | have less than 10 percent and they didn't have a permit | 19 | to apply for coverage. And that's the process. That's |
| 20 | last time, so the thing that kicks us in is the fact that | 20 | about it. So with that, once again, going once, going |
| 21 | we had a permit last cycle. So we're we'll be a State | 21 | twice, does anybody have any further testimony for this |
| | 18 | | 20 |
| 1 | agency and our counterparts won't have the same lovely | 1 | formal hearing? |
| 2 | headache that we have. That's mostly just okay. | 2 | (No response.) |
| 3 | And I think that that's it. Did we have any | 3 | MR. BAHR: Okay. Sold. At approximately 1:53 |
| 4 | other that I missed? | 4 | p.m., a record 23 minutes, we have completed the public |
| 5 | (Brief pause.) | 5 | hearing for the Phase II State and Federal MS4 General |
| 6 | MS. COLE: I think that's oh, just one small | 6 | Permit. Thank you all. |
| 7 | little comment. Under your Part (4)(a), the personal | 7 | (Whereupon, the hearing was concluded at 1:53 |
| 8 | education and outreach, I don't know if it was left out | 8 | p.m.) |
| 9 | or not, but there's not it doesn't say public | 9 | |
| 10 | education, it doesn't say personal outreach and public | 10 | |
| 11 | sorry. Personnel education and public outreach, it | 11 | |
| 12 | doesn't say that anymore. It just says personnel | 12 | |
| 13 | education and outreach. I didn't know if that meant | 13 | |
| 14 | outreach internally or to the public, but the old permit | 14 | |
| 15 | said public outreach, so that's | 15 | |
| 16 | MR. BAHR: Okay, great. | 16 | |
| 17 | MS. COLE: that's a thing for us. That's | 17 | |
| 18 | it. | 18 | |
| 19 | MR. BAHR: Thank you. Very good comments. | 19 | |
| 20 | Does anybody else here today wish to give | 20 | |
| 21 | testimony regarding this permit? | 21 | |
