Sir;

I am contacting you to voice my concern about the pending renewal of the lease for Exelon Corporation to operate the Conowingo Dam. I believe it is absolutely vital that before the MD Department of the Environment grants certification for Exelon Corporation to operate the Conowingo Dam, that a partnership must be developed between Exelon and the aquaculture industry, watermen, and other entities that derive their livelihood from the Chesapeake Bay regarding timing of the release of water from the Conowingo Dam. It is equally vital that the Federal Energy Regulatory Commission ascertain the formation of this partnership before approving the lease for Exelon to operate Conowingo Dam.

Please feel free to contact me via e-mail or at the address shown below regarding this matter.

Carl M. Gallegos, Ph.D.
