I support the relicensing of the Conowingo Dam. I live down river on Main Street Port Deposit with a view of the river. We often kayak in the clear waters. We are thrilled to have this source of clean energy. Please don't do anything to impact the financial health of the Dam. Exelon is also a very good neighbor to the community. Among other things, maintaining some beautiful parks and events that we all enjoy.

Thank you for supporting our community.
