

My name is Stephanie Campbell I live, work and play in Harford county. I am here tonight to say that I support the re-licensing of the Conowingo Dam.

Over 20 years ago, my husband and I purchased a small boat and trailered to different waterways in the county. We discovered that our favorite spot was the conowingo pond via the peachbottom power plant boat launch. 18 years ago we purchased a cabin on Broad Creek and we have been blessed to witness all of the wildlife, beautiful sunsets and star gazing offered by the Conowingo reservoir and shoreline. Our Broad Creek community association partners with Exelon every June to help remove tons of trash from the water and shorelines of the Conowingo so we can maintain our beautiful scenery. Several years ago the Association partnered with Exelon to build and place about 20 wood duck boxes along the shoreline of the river and Broad Creek. The conowingo dam has been a huge part of my life. I am glad to have been able to see the improvements to the recreational facilities around the pond and I have certainly enjoyed attending the Exelon events over the years that benefit the community. I have countless awesome memories and stories of my life on the Susquehanna River and I support the dam's long term operation to continue to produce clean energy in this region for generations to come.
