

January 1, 2023

The Water and Science Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than Tuesday, January 31, 2023.

Water Supply Program - (410) 537-3590

County: Caroline

CO1993G074/05: Harry Jones has applied to increase an existing water appropriation from an annual average of 134,000 gallons of groundwater per day (gpd) and an average of 810,000 gpd during the month of maximum use to an annual average of 178,000 gpd and 1,081,000 gpd during the month of maximum use for crop irrigation. Water will be withdrawn from three existing wells and two new wells, all in the unconfined Choptank aquifer. The project is located at 27042 Burrsville Road, Denton, Caroline County, Maryland.

CO2022G006/01: Arthur Eaton III has applied to appropriate and use an annual average of 110,500 gallons of groundwater per day (gpd) and an average during the month of maximum use of 671,500 gpd for crop irrigation. Water will be withdrawn from two new wells, both in the unconfined Choptank aquifer. The project is located at 9335 Fisher Road, Denton, Caroline County, Maryland.

County: Cecil

CE1987G076/04: Ise America, Inc. has applied to increase an existing water appropriation from an annual average of 7,400 gallons of groundwater per day (gpd) and an average of 12,000 gpd during the month of maximum use to an annual average of 28,000 gpd and 48,000 gpd during the month of maximum use for watering chickens, sanitation of equipment, and potable and sanitary facilities at the #15 Pullet Farm. Water will be withdrawn from two existing wells in the Magothy aquifer. The project is located at 682 Wards Hill Road, Warwick, Cecil County, Maryland.

CE1999G008/03: Ise America, Inc. has applied to increase an existing water appropriation from an annual average of 7,700 gpd and an average of 10,000 gpd during the month of maximum use to an annual average of 41,000 gpd and 70,000 gpd during the month of maximum use for watering chickens, sanitation of equipment, and potable and sanitary facilities at the #6 Layer Site. Water will be withdrawn from three existing wells in the Magothy aquifer. The project is located at 1526 Cecilton-Warwick Road, Warwick, Cecil County, Maryland.
